[EV-05] JpGU Super Lesson

Mon. May 22, 2023 2:00 PM - 4:00 PM ZOZOPARK HONDA FOOTBALL AREA (ZOZOPARK HONDA FOOTBALL AREA)

Registration Form

These are lecture courses to support not only students but also mid-career and veterans who want to study a method in data analysis and experiment that they have never touched before. This time, we will offer a variety of 9 lessons, both free and paid.

2:00 PM - 3:30 PM

[E-11-09]JpGU Super Lesson: Let's try 3D measurement with drone! (Practical session)

*Yuichi S. Hayakawa¹ (1. Hokkaido University)

Drone measurement is used as a method to measure the 3D shape of various objects, such as the undulations of terrain or the height of trees. This course is designed for those who are interested in drone measurement but do not know what it is because there is no one around them who uses it. This lesson is for those who have no experience in drone measurement.

***This is an ON-SITE ONLY event.**
