

Advancing Scholarly Publishing: Exploring Open Access and AI Trends with Springer Nature

*Beate Hienz¹, Jan Margulies¹

1. Springer Nature

This presentation offers insights into the latest trends shaping scholarly publishing, with a focus on advancements in open access (OA) agreements and considerations regarding AI integration. Discussions will include developments in transformative agreements with Japanese institutions, aiming to enhance OA accessibility. Additionally, the session will address evolving policies surrounding AI authorship and generative AI images in scholarly communication. While specifics may vary, the presentation aims to provide a broad overview of emerging journal trends at Springer Nature, highlighting the dynamic nature of the publishing landscape.
