

Let's measure objects around us with a spectrometer!

*Nobuyasu Naruse¹

1. Shiga University of Medical Science

In this workshop, participants will use a compact spectrometer to measure familiar samples such as plants and minerals, and learn the principles of reflectance spectra, the structure of spectrometers, and methods of spectral analysis through hands-on practice.

Date & Time: Sunday, May 24, PM1 (13:45–15:15)

Venue: Room 105

Language: English support available upon request

Application: <https://forms.gle/fUeiUYuLbPsWfz6J9>

Application Deadline: Sunday, May 24, 12:00

Capacity: 15 participants

Fee: JPY 500

Payment Method: Cash payment on-site

What to Bring:

If possible, please bring your own Windows laptop for data analysis.

If you are unable to bring one, shared PCs will be provided for use during the workshop.
