

Find the best answer to the future of people and the earth.

The calm sea, the breeze rustling through the trees,
and the land that supports our lives.

Nature provides countless blessings to humanity. Yet it is fragile
and, at times, can also bring disasters.

We must deepen our understanding of the Earth.

At OYO Corporation, we seek to uncover the true nature of the Earth
through our profound expertise in geoscience, extensive technical capabilities,
and innovation in digital technologies, providing solutions
that help build a safe and secure society.
