

**Title is 14 points, bold, centered (Times New Roman)**

**—Subtitle is 12 points, bold, centered (Times New Roman)—**

**Hanako NINGENKOU GAKU (Ningenkougaku University, School of Ergonomics),  
Taro AKASAKA (Ningenkougaku Co. Ltd.)**

## 1. Introduction

Fonts, line spacing, etc. should be created without changing this format. **The manuscript should be no more than 2 pages.**

Figures, Tables, and Photographs should be within the vertical and horizontal margins as below and should be considered for offset printing in black and white at the time of printing. Figures, Tables, and Photographs captions and legends should be centered directly below the figures, if necessary.

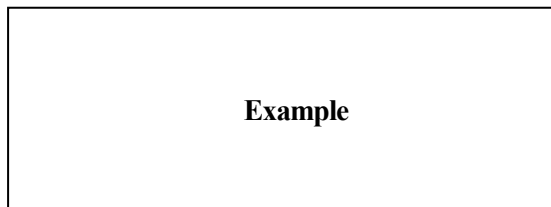

Figure 1 Model of this study

Please create PDF files with embedded fonts to prevent garbled text when printing.

When creating a PDF file in MS-Word, select “Save As”, choose the file type “PDF”, and save the file with “Standard” optimization.

When creating a PDF in Adobe Acrobat, select “Adobe PDF” for the printer, display the printer properties, select “PDF/X-1a:2001 (Japan)” for the PDF settings, uncheck “Use system fonts only, do not use document fonts,” and then Create PDF files with embedded fonts.

For information on how to create a PDF file with embedded fonts and how to check if the fonts are embedded in the PDF file, please refer to the conference website.

**After confirming that the fonts are embedded in the PDF file, upload the PDF file.**

If you do not know how to create a PDF file, please contact the conference secretariat.

## 2. Methods

Prepared manuscripts should be submitted according to the instructions provided on the conference website (<https://pub.conf.it.atlas.jp/ja/event/jes67>). Please strictly adhere to the deadline.

## 3. Results

The proceedings will be made publicly available on the Japan Science and Technology Agency (J-STAGE) after the conference period. The secretariat of the conference will prepare the publicly available data based on the manuscript registered at the time of application.

The copyright of the abstracts and other materials published in the Proceedings belongs to the Japan Human Factors and Ergonomics Society.

## 4. Discussion

For inquiries regarding abstract submission and registration, please contact as below.

**Secretariat of the 67th annual conference of Japan Human Factors and Ergonomics Society**

## Displaying SEGs presented by JES

Please choose the SEGs (**Sustainable Ergonomics Goals 2040**) that best match your research and display their icons in the header of the first page of your manuscript. There are nine SEGs icons in the header. Please keep only the icons that apply to your study and remove the others. Then, move the remaining icons to the left, keeping their vertical positions unchanged.

For more information about SEGs, please refer
