[749857] Confit: Checking account registration

② You will receive an account registration code by e-mail. Enter the code in the “Enter Account Registration Code” field and click “Register Account” to complete your account registration.

Confit account registration code : **749857**

Registration will be complete when the above Confit account registration code is entered on the screen.

The code is valid for a period of 30 minutes.

If the period of validity has expired, please register the account again from the beginning.

This email is automatically sent to those who have registered accounts with Confit.

Discard this email if it has been sent in error.

[Terms of Service](#) [Data Use Policy](#)

Entering an account registration code
Enter a six-digit number (e.g., 123456).

→] Create account

Notice !
Depending on the server of your e-mail address, you may not be able to receive the “Confit account registration code”. In this case, please use your private address or change your environment by trying at home.

3. Log in with your “Confit account”

After account registration is complete, the Confit Account Login/Account Registration screen will appear. Enter your password and click “Login. “Individual participant authentication code” screen will appear. The screen for entering the participant's Individual participant authentication code will be displayed.

i The method for logging in to Confit has changed.

An old account created with the previous login method cannot be used. First click “Check an account” to check whether you have a new account. If you do not, please proceed to “Create a new account.”

Check an account

If you are not sure whether you have a Confit account, enter the email addresses you might have registered before to check whether a Confit account has been created.

[Check an account](#) →

Create a new account

If you do not have a Confit-SMOOSY account, you need to create one. Prepare an email address and a password and create a new account.
