

		AM1		AM2		LUNCH		PM1		PM2		EVENING						
		8:15	9:00	10:00	11:00	12:00	13:00	14:00	15:00	16:00	17:00	18:00	19:00	20:00				
DAY0 Jul-12	A	Preparation/Setup																
	B	Preparation/Setup										Young Meeting for Cell Biology (*pre-registration is required)						
	C	Preparation/Setup																
	D1	Preparation/Setup										CSF Editorial Board Meeting						
	D2	Preparation/Setup																
	E	Preparation/Setup																
	P	Preparation/Setup																
		8:15	8:45	10:00	10:45	10:50	11:50	12:05	13:05	13:10	14:50	14:55	16:00	16:55	17:00	18:00	19:00	20:00
DAY1 Jul-13	A		1AS-A Marking 50 Years of CSF: The Evolving Role of Academic Society Journals [J]			1AO-A Signal Transduction, Protein Life Cycle, Immunity and Infection						1PS-A Mechanical tuning of multicellular dynamics [E]		Selection of the Best presentation award for young scientist				
	B		1AS-B Mitochondria codes: multifaceted structures and functions underpinning cell homeostasis [E]			1AO-B Proliferation, Differentiation, and Cell Death I		Luncheon seminar Gender equality					1PS-B Cell Biology Perspective from Protein and Organelle Lifetime Regulation [J]					
	C		1AS-C Revisiting the Endoplasmic Reticulum – Emerging Perspectives Beyond the Naming Debate [J]			1AO-C Cytoskeleton and Cell Motility I		Luncheon seminar Carl Zeiss					1PS-C Host responses to transposons and their endogenization and transgenerational inheritance [J]					
	D1		1AS-D1 Biophysical regulation of cellular function [J]									1PS-D1 Metabolic Homeostasis and Epi-omics in Disease Development and Cell Differentiation [J]						
	D2		1AS-D2 Nuclear Dynamics as a Driver of Fate: Chromatin, NPCs, and Phase Separation [J]									1PS-D2 We Love Golgi! – The legacy of Camillo Golgi after 100 years – [J]						
	E		1AS-E Multicellular systems orchestrated by diverse intercellular communication [J]			1AO-E Intracellular Transport, Organelles, and Biological Membranes I		Luncheon seminar CrestOptics					1PS-E Intercellular communication in multicellular organisms [J]					
	P											IP Poster presentation						
		Corporate exhibition																
DAY2 Jul-14	A		2AS-A Autophagy expanded: decoding membrane interface biology [J]			2AO-A Stem Cells, Regeneration, and Emerging Technologies						Plenary Lecture PS1 Karen Oegema PS-2 Atsushi Miyawaki		<Free Shuttle Bus> Sapporo Convention Center ↓ Hotel Monterey Edelfhof Sapporo ① 17:05→17:25 ② 17:50→18:10 (3 buses per departure time)			Banquet <Time> 18:30 ~ 20:30 <Venue> Hotel Monterey Edelfhof Sapporo ,13th Floor (Nishi 1-1, Kita 2 Jyo, Chuo-ku, Sapporo)	
	B		2AS-B ECM-Cell-Tissue Intercommunication: Mechanisms and Experimental Manipulation [E]			2AO-B Proliferation, Differentiation, and Cell Death II		Luncheon seminar Nikon solutions										
	C		2AS-C Advances in Extracellular Vesicle Research: Visualization, Quantification, and Functional Insights [E]			2AO-C Cytoskeleton and Cell Motility II		Luncheon seminar Leica Microsystems										
	D1		2AS-D1 Emerging diversity and recent trends in sensing mechanisms for cellular stress response [J]															
	D2		2AS-D2 Organelle Quality Control underpins the Cellular Society [J]															
	E		2AS-E Exploring multicellular dynamics by spatio-temporal molecular quantification [J/E]			2AO-E Intracellular Transport, Organelles, and Biological Membranes II		Luncheon seminar EVIDENT										
	P											2P Poster presentation						
		Corporate exhibition																
DAY3 Jul-15	A		3AS-A Assembly dynamics and their principles in cell functions and organization [E]			3AO-A Cell Adhesion and Extracellular Matrix						Take Down						
	B		3AS-B Perspectives on pH-Responsive Biology [J]			3AO-B Chromosomes, Nucleus, and Gene Expression		Luncheon seminar Thermo Fisher Scientific										
	C		3AS-C Synthetic Morphogenesis: Exploring the Minimal Building Blocks for Tissue Architecture [J]			3AO-C Intracellular Transport, Organelles, and Biological Membranes III		Luncheon seminar Yokogawa Electric Corporation										
	D1		3AS-D1 Organelle Dynamics in Cancer – Intracellular Organization and Function Orchestrated by Membrane-Bound and Membraneless Organelles – [J]															
	D2		3AF-D2 Stress Response: Adaptation or Breakdown? – Multiscale perspectives on the transition from physiology to pathology [J]															
	E		3AS-E Biology of non-model organisms with an eye toward parasite manipulation [J]			3AO-E Intracellular Transport, Organelles, and Biological Membranes IV												
	P											3P Poster presentation						
		Corporate exhibition
